

## **A Unique Kidney Stones Treatment: No Painkillers & No Operations, No Diet & No Herbal Remedies!**

This article explains how to dissolve kidney stone without pain and adverse side-effects. A new Thermobalancing Treatment is the key of this dissolving process.

### ***Unique Thermobalancing Therapy for kidney Stones***

Incidence Rate for Kidney stones: approx 1 in 272 or 0.37% or 1 million people in USA. Extrapolation of Incidence Rate for Kidney stones in China and India are around 4 million of people. The lifetime risk of developing kidney stones is approx 1 in 10 for Australian men and 1 in 35 for women and about three in 20 men and one in 20 women in the UK will develop a kidney stone at some point in their lifetime.

The new natural treatment dissolves all types of Kidney stones and all sizes of kidney stone without any adverse side effects.

***Dr Allen's Device for Kidney Care*** is an innovative alternative treatment for kidney stones. It dissolves kidney stones naturally and helps to protect the body from harmful painkillers and possible surgical operations.

### **Dr Allen's Device for Kidney Care**

is a unique treatment for kidney stones, which:

- ❖ Dissolves kidney stones naturally and eases urination;
- ❖ Provides pain relief naturally, without resorting to medication;
- ❖ Provides a long-term natural treatment for the cause, not just its symptoms;
- ❖ Promotes healthy functioning of your kidneys preventing stones.

*Dr Allen's Device for Kidney Care* is comfortable to wear and will not affect your day-to-day activities and can also be used as a preventive measure.

More information about the device can be found on the Fine Treatment website: <http://www.finetreatment.co.uk/natural-alternative/kidney-stone-treatment.html>

### **What you need to know about kidney stones problem**

Kidney stones are solid concretions (crystal aggregations) formed inside the kidney tissue. These stones do not lie in the urinary tube separately; they are tightly joined with soft kidney's tissue. The stones grow from inside the kidney tissue towards the urinary tube. In later stages, the part of the stone which appears in the urinary tube starts to lose crystals (sand) or small pieces which move through the urethra causing the unforgettable pain.

Any attempt to eliminate the stones from the kidney surgically also removes the living kidney's flesh but do not stop the stones' future growth in the untouched part of the kidney. Such surgery takes off part of the kidney and irreversibly damages its function. Dr Allen spent more than 10 years in hospital treating the causes of kidney stones where he supervised many patients with chronic kidney failure after "successfully" surgically removed kidney stones. The herbal treatment and special diet do not help people to get rid from kidney stones therefore they are forced to use harmful medications and surgery. Dr Allen is sure that targeted treatment of the real cause of kidney stones is only one natural way to get rid of them. There is no remedy exist on the world which can help to cure kidney stones except of the natural treatment of the cause of kidney stones exposed by Dr Simon Allen.

***Compare this with the mainstream and complementary therapies to kidney stones treatment:***

**1. Non-invasive Extracorporeal Shock Wave Lithotripsy (ESWL) does not cure the kidney stones cause** and damages kidney tissue. In ESWL stones can be shattered into smaller fragments and discharge from the body with urine. The procedure is painful and has potential side effects such as hypertension (as a result of kidney tissue damage) and diabetes (as a result of pancreas tissue damage). Also, not all types of kidney stones can be treated this way. In addition, stone fragments are occasionally left in the body and additional treatments are needed. ESWL does not stop kidney stones formation in the future.

It cannot be compare with natural treatment by using *Dr Allen's Device for Kidney Care*, which does not affect the kidney or any other organ at all.

**2. Prognoses of surgery treatment of kidney stones are very poor:** bleeding, infection, and chronic renal failure are common.

**Thermobalancing Therapy  
for Kidney Stones**

*Dr Allen's Device for Kidney Care dissolves kidney stones naturally without adverse side effects. The innovative device treats the cause of the kidney problem naturally and prevents the need for potentially harmful medications and future surgery. This treatment is free from herbal remedies or constrained diet. A small stone will be dissolved within 3 months, a big stone within a year.*

It is not comparable with natural treatment by using *Dr Allen's Device for Kidney Care*, which dissolves kidney stones without affecting the organ.

**3. Medications** (drugs, intravenous infusion or intramuscular injection) **do not help to get rid of kidney stones.** Different medications help to reduce the symptoms of this health disorder, such as pain. However, taking pain-killers block not only pain signals to the brain but also useful ones which are essential for normal functioning of the body. In addition, there is an increased risk of gastrointestinal complications ranging from stomach pain to ulcers, haemorrhage, and severe and

potentially deadly gastrointestinal problems, often necessitating surgical intervention which in turn worsens general health in the long term.

*Dr Allen's Device for Kidney Care* consists of the absolutely natural special designed thermo-elements which are attached to the skin in projection of kidney and provide their magnificent effect only to kidney, thus it cannot be compared with medications.

**4. Treatment of kidney stones with any diet does not dissolve kidney stones.** Dr Allen spent more than 10 years in hospital treating the causes of kidney stones with special nutrition and using different herbal remedies. He was the creator of a diet which helped people to dramatically reduce the process of kidney stones development. However, practically, such restricted nutrition is very difficult to maintain at home and people need to adhere it their whole life. Dr Allen has monitored the patients with kidney stones for years and can confirm that nutrition does not remove the kidney stones and may be helpful as an important element in treatment which blocks initial the triggers which play role in formation of kidney stones. In a long-term treatment patient with kidney stones should to avoid hot and spicy food in order to prevent contamination of blood with initial triggers and thus helping to avoid kidney stones formation in the future.

New alternative treatment with *Dr Allen's Device for Kidney Care* cannot be compared with effects of any diet, because when the stone is formed there is no diet which can tackle the cause of it and consequently dissolve stone inside the kidney.

**5. Herbal treatment does not dissolve kidney stones.** Herbal remedies like a restricted diet helps to protect kidney from some initial triggers which are responsible in development of the kidney stones. Special made herb cocktails by stimulating urination help to flush out crystals or small pieces of kidney stones, which has been separated from the kidney stone inside the kidney tissue to the urinary tube. Also herbs which provide antibacterial effect help to get rid of infection in urinary tract and others may produce a sedative result helping to reduce pain but herbs do not dissolve kidney stones in the kidney itself.

The hopelessness of herbal treatment is the reason why people who suffer from kidney stones are compelled to look for ESWL or surgical solutions. Therefore, treatment with herbs do not compare with *Dr Allen's Device for Kidney Care* which is the only way to treat kidneys stones naturally.

**To conclude:** mainstream medicine with different medications, ESWL and surgeries as well as the complementary and alternative therapies, are helpful only in treatment of the symptoms of kidney stones, not of the cause of the kidney problem, moreover some of these treatment are damaging the body, when

### **A Natural Treatment for Kidney Stones**

*Dr Allen's Device provides natural treatment of kidney stones **without any side effects.** Unique natural thermo-elements are a major component which creates an ideal environment for the capillaries to stabilise the body temperature in the tissue. This improves blood flow and necessary nutrients, helping the kidney to recover. Pain and other symptoms disappear within **1-2 days** without medications.*

**unique Dr Allen's Device for Kidney Care removes kidney stones naturally without affecting the kidneys by targeting the cause of the kidney stones disorder.**

### **The Cause of Kidney Stones**

This unique and natural treatment of kidney stones became available after Dr Allen created a ***Theory of the Origin of Health Disorders***, which explains the real cause of the kidney stones growth:

- Renal tubular acidosis and surplus of some minerals in blood are the initial triggers in developing kidney stones.
- Some of the crystals start to aggregate during their filtration inside kidney and irritate the surrounding tissue.
- In order to clean up the crystals, the surrounding tissue reacts by increasing of the number of capillaries in this area and then this enlarges the volume of the tissue here.
- The kidney has a strong capsule surrounding it; therefore a huge pressure builds up inside the organ. Under this pressure the tissue does not get enough blood and this in turn lowers the temperature in this tissue which worsens the situation because it leads to the expansion of extra capillaries. The crystals are pushed out towards urinary tube and form solid concretion.
- This pressure upsets the balance and filtration of minerals and leads to the development of kidney stones disease with permanent stone production.

### **What is in a Core of the Thermobalancing Therapy of Kidney Stones?**

The natural thermo-elements, a major component of Dr Allen's therapeutic device, bring pain relief effectively. By making temperature constant in the affected area of the kidneys, Dr Allen's Device for Kidney Care creates an ideal environment for the capillaries to stabilise the body temperature inside kidneys tissue and supply it with all necessary nutrients, thereby helping the area to recover.

**As a result the tissue stops from expanding and it removes the pressure inside the kidney.** It will improve the filtration and metabolism of minerals freeing

the tissue of the kidney from stones. Treatment with Dr Allen's Device for Prostate Care is the only harmless way to get rid of kidney stones and moreover it provides stable pain relief effect as well.

Dr Allen's Device for Kidney Care is available exclusively through the FineTreatment.co.uk website:

<http://www.finetreatment.co.uk/index.php?act=viewProd&productId=5>

**"Everyone will sooner or later benefit from this new natural method of preventing and treating of kidney stones problem,"** highlights Dr Allen.

Dr Allen explains that the stressed area puffs up, putting the organ under a massive pressure from the swelling of the surrounding tissue, causing pain and stones growth.

"It is an absolutely natural way to help your body to eliminate kidney stones disorder by targeting its actual cause, without creating any adverse side effects."

**"The *Dr Allen's Device for Kidney Care* is highly effective because it tackles the cause of the kidney stones problem,"** Dr Simon Allen adds.
